Specifications

Available Sizes	4/1G
Physical State	Liquid
Color	Light Orange
Fragrance	Glycol
Foaming	Low
Corrosive	Yes
Petroleum Distillates	None
Viscosity	Thin
DOT	Regulated
Specific Gravity (H ₂ O=1.0).....	1.09
VOCs	<1%
pH	13.3
HMIS Hazard Rating	
Health	3
Flammability	0
Reactivity	2
Personal Protection	C

What the Pros Know

A warm oven makes soils soften. This helps **Oven & Grill Cleaner** work easier and faster. Always have employees wear protective glasses and gloves when using **Oven & Grill Cleaner**. By thoroughly rinsing and preheating the oven before its next use will reduce or eliminate odor from caustic residues.

- Formulated for institutional ovens and cooking utensils
- Powerful alkaline formula - Penetrates baked-on soils
- Quick removal - Easy to use
- Removes burnt on grease and grime from range tops, fryers, boilers and more
- Spray, wipe off formula
- Caustic formula
- Nonflammable formula

Designed for use in institutional and commercial kitchens, this oven and grill cleaner penetrates soils rapidly for easy removal. This product provides exceptional cleaning ability for the removal of baked-on or burned-on food soils, animal fats and carbon. Formulated with sodium hydroxide to chemically dissolve baked-on grease, food and soot in ovens, around griddles, broilers and fryers. Safe for use on stainless steel, chrome, porcelain or glass. Do not use on aluminum.

Directions

Wear safety equipment recommended on MSDS, read all directions and cautions prior to beginning your work.

Preheat oven to approximately 200°F. Cut off heat source. Spray generously on heated surfaces. Let stand 15 to 30 seconds, then wipe clean with a wet cloth or sponge. Use vinegar and water solution for rinse. (1 cup vinegar per gallon of water). Cleaner may be left on longer depending on the surface condition. On a stubborn hard-to-clean area, leave on 3 to 5 minutes and use a metal sponge to help the cleaning action. Repeat if necessary.
