Viscosity .....	2600 cP
Specific Gravity .....	1.012
pH .....	9.5
USDS .....	C2
<b>HMIS Hazard Rating</b>	
Health .....	1
Flammability .....	0
Reactivity .....	0
Personal Protection .....	A

### What the Pros Know

Coconut Oil hand soaps have added mildness because of the inherent natural glycerin. Thorough agitation of hands during washing greatly enhances the removal of bacteria.

- Coconut oil based hand soap - Creates rich lather
- Antimicrobial agent - Reduces germ and bacteria counts on skin
- Enhanced with skin conditioners - Moisturizes skin; does not dry or chap skin
- Ready to use liquid - More sanitary than bar soaps
- Free rinsing fragrance - Leaves hands fragrance-free
- Thick, rich viscosity - Luxurious feel and reduces dispenser drip

The antiseptic feature is a bonus of this premium quality liquid hand soap. This thick, luxurious, pearlized soap is made from the finest grade of coconut oil and enhanced with an exclusive skin care system to help moisturize hands as it cleans. Unlike other liquid and bar soaps, this product sanitizes the hands as they are washed with an antimicrobial agent that reduces transient bacteria on the skin. This unique hand soap offers superior cleaning power. It has a pleasant scent that is easily rinsed without leaving the fragrance on hands. This product is ideal for any facility with refillable liquid pump or gravity fed soap dispensers in restrooms, kitchens or clean up areas.

### Directions

Ready to use.

Wet hands and apply soap to work up a rich lather. Then thoroughly rinse. Not designed for use as a shampoo. See label for complete directions and use only as directed.
