Physical State	Liquid
Color	White
Fragrance	Pleasant Scent
Clinging Action	Excellent
Acid Content	4% Oxalic Acid
Biodegradable Surfactants	Yes
pH	1.6
Specific Gravity	1.275
HMIS Hazard Rating	
Health	1
Flammability	0
Reactivity	1
Personal Protection	B

What the Pros Know

Oxalic Acid reacts with iron stains and other mineral residues quickly. The polishing silica will begin to smooth deep scratches that are caused by harsh scouring powders.

- Thick, clinging creme cleanser - Efficient cleaner
- Contains liquid silica - Excellent scrubbing action
- Rinses freely and easily - Easy to use, saves labor
- Non-scratching - Safe to use on fiberglass, metals, porcelain
- Ready to use - Convenient, no mixing

Excellent for the cleaning of porcelain, acrylic and fiberglass fixtures in restrooms and kitchens. The thick rich formula will not scratch porcelain. Applications include kitchens, lavatories, tubs and showers that need extra scrubbing power. Ideal for use wherever a non-scratching cleaner is needed. The popular Pleasant Scent fragrance eliminates odors while leaving a light fresh fragrance.

Liquid Scouring Crème is one element in the coordinated Team Pleasant Clean System of cleaners, odor counteractants and disinfectants, all containing the popular Pleasant Scent fragrance.

Directions

Wear safety equipment recommended on MSDS, and read all directions and cautions prior to beginning your work.

Ready to use. Pour on surface to be cleaned and rub with a damp sponge or scrubbing pad.

Rinse. See label for complete directions and use only as directed.

Non-scratching

Rinses freely
and easily

Ready to use
