EPA Registered	Yes
Acid Content	9.6 Hydrochloric
Biodegradable	Yes
Specific Gravity	1.05
pH	0.1 - 0.7
HMIS Hazard Rating	
Health	3
Flammability	0
Reactivity	0
Personal Protection	B

What the Pros Know

Hydrochloric Acid Bowl Cleaners aggressively go after mineral deposits. Their use is advised in areas with high mineral content water supplies.

Do NOT mix with bleach, ammonia, or non-acid restroom products.

- Ready to use - Convenient, no mixing
- 9.6% hydrochloric cleaner - Strong enough for heavy soils, yet gentle enough for everyday use
- Acid compatible detergent - Easier stain removal
- Hospital use disinfectant - Proven germ killing power
- Deodorizer, fresh mint fragrance - Leaves rooms smelling fresh and clean

This disinfectant toilet bowl cleaner is especially formulated to kill many germs commonly found in hospital, industrial and institutional environments. It is designed to remove scale and hard water deposits as it disinfects toilet bowls and urinals. It contains an acid compatible detergent system that removes resistant stains and increases its disinfectant action. When used as directed, this product cleans, disinfects, and deodorizes in one step.

The broad spectrum efficacy of this product in toilet bowls and urinals has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test: *Staphylococcus aureus*, *Shigella dysenteriae*, *Salmonella choleraesuis*, *Escherichia coli*, *Pseudomonas aeruginosa*, *Serratia marcescens*, *Salmonella Typhi*, *Streptococcus faecalis*, HIV-1 (AIDS Virus).

Directions

Wear safety equipment recommended on MSDS, and read all directions and cautions prior to beginning your work. See label for complete directions and use only as directed.

Add 3 fluid ounces directly to water in toilet bowl or urinal (3/4 gallon).

Use bowl mop or brush to cover all surfaces.

Allow disinfectant solution to remain at least 10 minutes for full disinfection. Flush.
