PLEASCENT SCENT

MALODOR COUNTERACTANT
DESODORANTE CON OLOR A FRESCO Y LIMPIO
ALTAMENTE CONCENTRADO

Technical Data

Areas of Use

Eliminates odors due to smoke, vomit, urine, fecal matter, pets, cooking and more
 Walls, floors and carpeting
 Upholstery, curtains, drapes, laundry
 Drains, waste bins
 Toilets, sinks and showers
 Air treatment by misting

Specifications

Available Sizes.....4/1G
 Physical State.....Liquid
 Color.....Clear Green
 Fragrance.....Pleasantly Fresh
 Foaming Controlled
 Free Rinsing Yes
 Viscosity Thin
 Phosphates None
 Flammable (Concentrate) Yes
 Biodegradable Yes
 Specific Gravity 0.987
 pH (undiluted) 7.0

What the Pros Know

There is a difference between covering up a malodor and reacting it away. **Pleasant Scent** removes malodors by chemical removal. **Pleasant Scent** does not contain formaldehyde that desensitizes nasal passages.

The SSS Pleasant Clean System provides a coordinated program for restroom maintenance. The use of the exclusive Pleasant Scent fragrance in a multiple product cleaning-disinfectant-odor counteractant system insures that restrooms give a positive impression.

Concentrated - Economical to use
Institutional strength - Counteracts the most objectionable odors
Malodor counteractant - Neutralizes and eliminates odors
Pleasant fragrance - Freshens the room
Add to cleaning solutions - Eliminate odors as you clean
Water based - Can be used on fabrics without staining

Removal of unpleasant odors is simplified with this product. This concentrated, water soluble deodorant does not merely cover up odors; it chemically neutralizes the odor causing molecules without leaving an overpowering scent. It contains the fragrance that your nose detects, two re-odorizing agents and a sophisticated surfactant-emulsifier system. The unique formula continues to work to fight odors long after initial fragrance has dissipated.

Properly diluted, it can be sprayed directly on surfaces or fabrics without staining or leaving a residue. The versatile formulation allows its use in fire damaged facilities and eliminates odors due to smoke, vomit, urine, fecal matter, pets and cooking.

Directions

Wear safety equipment recommended on MSDS, read all directions and cautions prior to beginning your work.

General Purpose Odor Control: Dilute 1:32 (4 ounces per gallon of water) for use on walls, floors, toilets, sinks, showers, drains, garbage cans, etc.

Carpets: Dilute 1:32 (4 ounces per gallon of water). May be used with Rotary Shampoo or Extraction cleaning methods.

Air Deodorizing: Dilute 1:128 (1 ounce per gallon of water) to control airborne odors. Fill spray bottle and mist the air. Spray onto upholstery and draperies to control odors.

Portable Toilets: Dilute 1:8 (16 ounces per gallon of water).

Laundry: Add 4 ounces into wash cycle to control odors.
