What the Pros Know

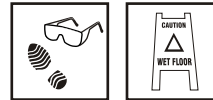

Before spray buffing make sure the floor is clean and free of grit. This eliminates yellowing or darkening and greatly extends the life of your finish.

- Repairs scuffs/abrasions - Restores gloss
- Non-flammable - User friendly
- Provides lubricity to spray buff process - Reduces operator fatigue
- Prolongs life of floor finish - Resulting in a reduction of overall labor costs

Designed to repair and restore finish gloss in one easy step. Stargate will remove marks, scuffs and abrasions while restoring gloss. For use with a 175-1500 rpm equipment as part of a spray buffing floor maintenance program. The use of this product will prolong the life of floor finishes and decrease the need to strip and recoat resulting in overall labor savings.

Directions

Wear safety equipment recommended on MSDS, place Wet Floor Signs and read all directions and cautions prior to beginning your work.

Dust mop to remove dry soil. Wet clean with Strobe, a neutral pH cleaner.

Spray a fine mist over a small area to be buffed (about 10 square feet at a time).

Immediately buff sprayed area with a floor machine and spray buff pad until dry and glossy. Change or flip pads when they become clogged.
