Description

This comprehensive spotting kit contains the solutions and tools necessary to remove your most difficult spots and stains from carpet and upholstery. Complete with 7 specialty spotters, rinse water bottle, SSS brush/scraper, micro fiber towel, MSDS's, and a spot removal guide, all in a durable molded case.

Difficult stains need specific treatment to remove properly. The laminated, bi-lingual spotting guide identifies the best sequence of products for removal of more than 40 spots and stains.

Professional-Grade Formulations

Number-Coded for Easy Identification

Convenient Carrying Case

Refills Available

What the Pros Know

Spot as soon as possible. Be patient, some difficult spots can take several spotting applications. Not all stains can be removed completely due to differences in fibers, dyes, carpet construction, type of stain, length of time the stain has remained on the fiber, etc.
