

HP-C³

HYDROGEN PEROXIDE CITRUS CLEANER

Technical Data

Specifications

Active Ingredients:	14 + 0.5%
Color:	Amber
Odor:	Citrus
Base:	Detergent Blend
pH:	3.0 - 5.0
Viscosity:	Water thin
Foam:	Moderate
Abrasive:	None
Phosphate:	None
Solubility:	Complete w/water
Emulsification:	Excellent
Detergency:	Excellent
Rinsability:	Excellent
Biodegradability:	Complete
Storage/Stability:	6 Months
Weight Per Gallon:	8.48 lbs. / gallon
Freeze/Thaw Stability:	Keep from freezing
Butyl:	None
Phosphate Content:	None
Chlorine Bleach:	None

HMIS Hazardous Materials I.D. System

Health 1	Flammability 0
Reactivity 0	Personal Protection B

What the Pros Know

Natural citrus solvents are excellent for the removal of grease and oily soils. Hydrogen Peroxide is a powerful, safe and effective oxidizer that increases the cleaning power without the use of butyl, phosphates or chlorine bleach.

Highly concentrated cleaners must be properly diluted. Follow the label directions carefully to obtain the best mix of cleaning power, safety and economy. When using spray bottles remember that OSHA requires secondary labeling.

Description

Natural citrus-based solvents, hydrogen peroxide, and powerful detergents provide exceptional cleaning performance. Excellent for fast removal of soils on most washable surfaces including walls, floors, counters and more. Suitable for spray & wipe, mop & bucket and auto scrubber application. Light citrus fragrance.

Directions

Read all directions and cautions on the label prior to using. Consult the MSDS for recommended personal protection equipment.

DILUTIONS

Light Cleaning - Dilute 1:64 (1/2 ounce per quart bottle; 2 ounces per gallon of water).

Medium Cleaning - Dilute 1:32 (1 ounce per quart bottle; 4 ounces per gallon of water).

Heavy Cleaning and Degreasing - Dilute 1:10 (3 ounces per quart bottle; 12 ounces per gallon of water).

DIRECTIONS

1. Dilute as recommended above depending on the difficulty of the cleaning task.
- 2) Trigger Sprayer - Pour the measured concentrate into a quart bottle, fill the bottle with water and add the proper secondary label. Spray and wipe the surface clean.
- 3) Bucket and Auto Scrubber - Pour the measured concentrate into the mop bucket or auto scrubber tank. Add water. Apply with a mop or auto scrubber.
