SSS Perisept Sporicidal Disinfectant Cleaner

**Two-Minute C. diff Claim**

at 99.9999% Efficacy

SSS Perisept Sporicidal Disinfectant Cleaner eliminates and prevents the spread of *C. difficile*, as well as MRSA and many other common pathogens in healthcare, including ESKAPE pathogens – Enterococcus faecalis (VRE), *Staphylococcus aureus*, *Klebsiella pneumoniae*, *Acinetobacter baumannii*, *Pseudomonas aeruginosa*, and Enterobacter species.*

Contains no alcohol or bleach, requires no rinsing and leaves no film on hard surfaces. As a hospital-grade disinfectant cleaner and sporicide it is ideal for surgical rooms, patient rooms, operating suites, physical therapy departments, nursing services, autopsy facilities, long-term care facilities and nursing homes.

According to the Centers for Disease Control and Prevention, EPA-registered disinfectants with a sporicidal claim have been used successfully with environmental surface disinfection in patient care areas.

*When used in accordance with product labeling.
How does PERISEPT Work?

1. PAA disrupts/opens protective membrane
2. HP destroys internal structures

**Power that lasts**

Peroxyacetic acid disrupts the outer membrane/endospore or coat of the target spore, bacteria, or virus.
- Hydrogen peroxide oxidizes and destroys the internal components.

Together, the active ingredients kill the microbe.

The primary mode of action is oxidation; the stronger the oxidizer, the faster the killing.

### Oxidation Potential of Various Disinfectants

<table>
<thead>
<tr>
<th>CHEMICAL</th>
<th>eV (ELECTRON VOLTS)</th>

<tr>
<td>Chlorine Dioxide</td>
<td>1.57</td>
</tr>
<tr>
<td>Sodium Hypochlorite (bleach)</td>
<td>1.36</td>
</tr>
<tr>
<td>Nitrogen Dioxide</td>
<td>0.80</td>
</tr>
</tbody>
</table>

The higher the eV, the better the chemical.

### PERISEPT Dispensing Options

#### Single Station Unit
Efficient, accurate dilutions in an ultra-compact design
- Durable polypropylene construction with optional locking cabinet
- Safe-Guard System eliminates spills and chemical contact
- 2.5 GPM dispensing with action-gap back-flow protection
- Dispenser can be connected to a single water source

#### Navigator Portable
Saves time—no back-and-forth trips to refill buckets or equipment
- Ideal for remote locations – works with any standard water source
- Compact, rugged design with simple one-hand control
- Safe-Guard System eliminates spills and chemical contact

---

**Combat C. diff and HAIs with the Industry’s Fastest Sporicidal Disinfectant Cleaner**

**Fast Kill Time**
With its shorter kill times, SSS Perisept Sporicidal Disinfectant Cleaner stays wet and works faster. The outcome – assured efficacy against hard-to-kill C. difficile spores and other dangerous pathogens every time you clean and disinfect.

**Cost-Effective Non-Bleach Formula; Superior Material and Surface Compatibility**
The non-bleach, hydrogen peroxide/peroxyacetic acid based formulation leaves no harmful or corrosive residues, no undesirable film on surfaces. SSS Perisept Sporicidal Disinfectant is compatible with many different surfaces and medical equipment used in healthcare including stainless steel, aluminum, chrome, glazed ceramic tile, plastic and painted surfaces, and finished floors. Unlike bleach-based products, it will not corrode metal or damage mattress covers, and requires no rinsing. See the Technical Guide for a broad list of compatible surfaces.

**Benefits of a Concentrate**
SSS Perisept Sporicidal Disinfectant is designed for use with the closed loop Navigator Dilution Control System. The Navigator DCS offers closed loop dispensing and minimizes contact with the concentrate. The easy to follow numbering and color-coded labeling simplifies training for EVS departments. The high 1:32 dilution rate offers customers a lower end-use cost making it affordable for use as a daily cleaner, in addition to operating rooms, isolation rooms and post discharge. Standardizing to one disinfectant cleaner reduces training challenges, potential confusion, as well as, the number of chemicals stored in the supply closet.

PERISEPT Dispensing Options

**Navigator 4 - Station Dispenser**

Four-Station Wall Mount Dilution Control System accurately dispenses four different concentrated cleaning products in one easy step.

**Features:**

- Easy refill bottle installation
- Single dial product selector
- One-handed spray bottle filling
- Remote bucket/auto scrubber fill gun with trigger on handle
- Rinse water selector
- 2.5 GPM dispensing with action-gap back-flow protection
- No metering tip installation—refill bottles come pre-tipped
- Locking doors prevents access to concentrates

---

**Safe-Guard™ System**

Leak-proof bottle insert integrates with dispenser connector—eliminates spills; prevents contact with concentrated product.
