

# Q-Line Floor Machines

Designed for the professional

The Triple S Q-Line Floor Machines are built for dependable performance year after year. The time tested design and commercial grade components can be counted on to handle multiple tasks throughout your facility.

The Q-17 and Q-20 are powered by capacitor start and capacitor run commercial motors. The standard 175 rpm models feature cast aluminum bases and yellow power cords. The Q-1500 high speed burnisher is powered by an industrial 1.5 hp DC motor. The high impact ABS base withstands cracks, dents and corrosion. It comes with a flex pad driver for excellent gloss performance on uneven flooring.

The Q-Line Floor Machines combine value with performance without sacrificing dependability.
