Constructed with powerful motors, tough cast aluminum housings and rugged components, XL Floor Machines are designed and built for the professional. Shift after shift, year after year you can rely on excellent performance and dependable operation.

XL STANDARD

XL BURNISHER

EDGER

1.5hp

Standard XL Floor Machines 175 RPM

Powerful 1.5 HP, 66-frame motor for years of reliable operation. Triple planetary gear system provides smooth operation and longevity. Rugged cast aluminum base and switch box for sturdy dependability. Pad driver included on all models. A 13" model with single planetary gear system and 1/3 HP is available for smaller areas. Ideal for polishing, spray buffing, scrubbing and stripping resilient floors; rotary-cleaning carpets and sanding wood floors.

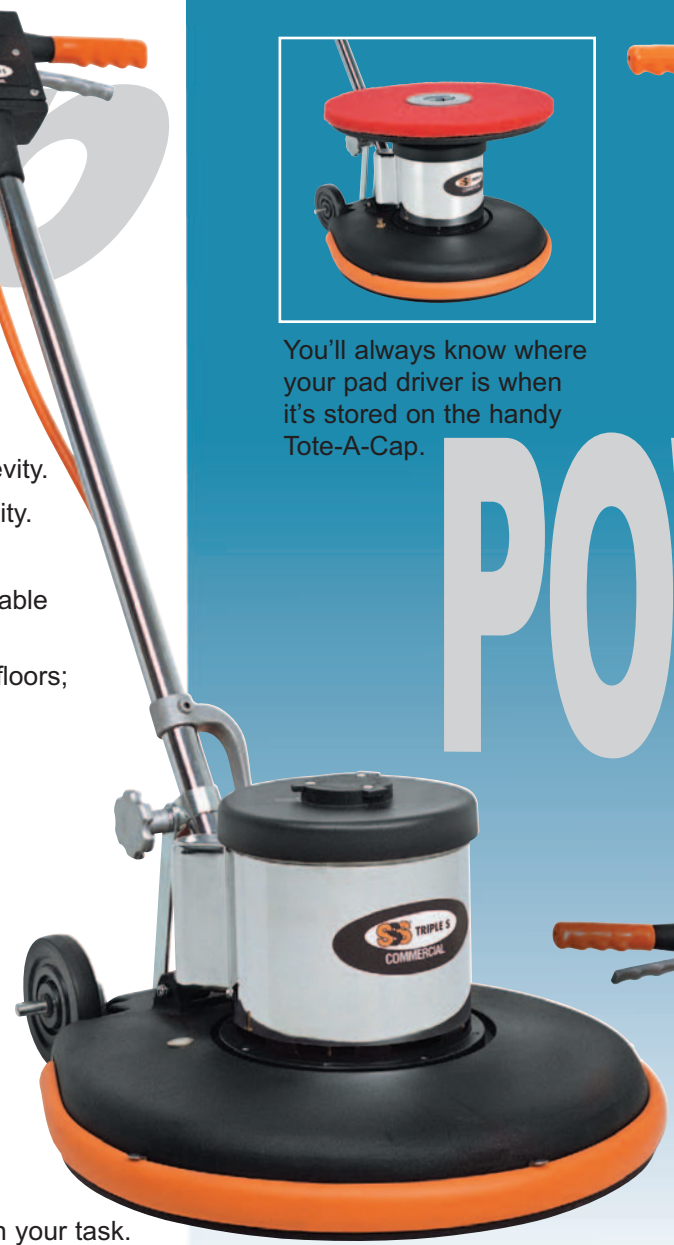

XL Dual Speed 175-300 RPM

Features a 1.5 HP, 66-frame motor with triple planetary gear system. Extra versatility at the flip of a switch. Select 175 or 300 RPM speed based on your task. Choose the lower speed to scrub and strip resilient floors or to sand wood floors. Use the higher speed to polish and spray buff floors. Includes high speed pad driver.

You'll always know where your pad driver is when it's stored on the handy Tote-A-Cap.

XL UHS Burnishers 1500 and 2000 RPM

Powered by 1.5 HP, 66-frame motor for everyday reliability. Rugged cast aluminum base and switch box for sturdy dependability. Warning light alerts user when motor brushes need replacement. Sturdy cast aluminum alloy levers and ergonomic grips provide optimum control and safety. Includes a flexible pad driver. Manual reset 18 amp circuit breaker for overload protection.

Edger Floor Scrubber

High torque motor provides powerful cleaning action for a wide range of uses. Excellent for cleaning baseboards, stairs, restrooms, elevators, entrance areas, locker rooms, kitchens and similarly congested areas. Includes a 6" pad driver, 3"x 6" Mal-Grit brush, splash guard and brown strip pad. Other accessories are available.

The XL 2000 Burnisher features an adjustable front caster for changing the pad pressure.

Contractor Special XL 17 CS

For large area stripping and scrubbing jobs choose the 17" Contractor Special model with a 4-gallon solution tank. Has all the great features of the Standard XL Floor Machines.
