

Provides Ice Melting Solutions to Meet All Your Needs

TRIPLE S Family of Ice Melting Products

White Fever Ice Melter

- Formulated for superior value at an economical price
- Less harmful to concrete or vegetation when used as directed
- Non-hygroscopic formulation means it will not harden
- Does not leave an oily residue
- Sweeps, vacuums and washes up easily
- Melts to temperatures of 5°F
- Uses: Concrete, walkways, driveways, grass, metal, wood, etc.
- Ingredients: Sodium Chloride, Calcium Chloride, Potassium Chloride, Magnesium Chloride
- Available in 50 lb bags (#61001) and 10 lb shaker jugs, 4/case (#61005)

Purple Flame Commercial Ice Melter

- Combines the most effective deicing ingredients to ensure fast ice melting
- Fast acting, long lasting melting for added protection and economy
- Highly visible purple color indicator ensures precise and cost effective spreading
- Non-hygroscopic formulation means it will not harden
- Melts to temperatures of -10°F
- Uses: Concrete, walkways, driveways, grass, metal, wood, etc.
- Ingredients: Sodium Chloride, Calcium Chloride, Potassium Chloride, Magnesium Chloride, Purple Color Indicator
- Available in 50 lb bags (#61006) and 10 lb shaker jugs, 4/case (#61010)

Blue Blaze Performance Ice Melter

- Calcium magnesium acetate (CMA) formulation – a safer blend of ice melt
- Anti-corrosion inhibitors added
- Less harmful to concrete or vegetation when used as directed
- Anti-caking agents added for free-flowing dispersion
- Highly visible blue color indicator ensures precise and cost effective spreading
- Melts to temperatures of -10°F
- Uses: Concrete, walkways, driveways, grass, metal, wood, etc.
- Ingredients: Sodium Chloride, Potassium Chloride, Magnesium Chloride, CMA, Urea, Blue Color Indicator
- Available in 50 lb bags (#61011) and 10 lb shaker jugs, 4/case (#61015)

Green Heat “EarthCare®” Ice Melter

- Specially enhanced with CMA (calcium magnesium acetate) and other eco-friendly ingredients to make this one of the most environmentally friendly ice melter formulations on the market
- Less harmful to vegetation, grass and other plant life
- Guards against concrete/wood corrosion damage
- Safer to use around children and pets
- Highly visible green color indicator ensures precise and cost effective spreading
- Melts to low temperatures of -15°F
- Uses: Concrete, walkways, driveways, grass, metal, wood, etc.
- Ingredients: Sodium Chloride, Potassium Chloride, CMA, Urea, Green Color Indicator
- Available in 50 lb bags (#61016) and 10 lb shaker jugs, 4/case (#61020)

MaxHeat Maximum Performance Ice Melter

- Super fast acting, calcium chloride based ice melting formulation for extreme weather conditions and extra long lasting deicing
- PGB-99® accelerator ensures quick ice melting action
- CI-56™ corrosion inhibitor ensures this powerful ice melter does not corrode the surface area when used as directed
- Highly visible blue color indicator ensures precise and cost effective spreading
- Melts to ultra low temperatures of -25°F
- Uses: Concrete, walkways, driveways, grass, metal, wood, etc.
- Ingredients: Calcium Chloride, Magnesium Chloride, CI-56™, Urea, Propylene Glycol - Blue (PGB-99®), Blue Color Indicator
- Available in 25 lb bags (#61024), 35 lb pails (#61022), and 100 lb drums (#61023)
