

Easy Trap Duster System

Technical Data

January 2007

Description:

3M™ Easy Trap Duster System is a unique floor and surface dusting material that captures and holds dust and dirt. The 3M™ Easy Trap Duster System is comprised of the 3M™ Easy Trap Duster and 3M™ Easy II Holder.

Special Features:

3M™ Easy Trap Duster

- The dusting cloth can be used on both sides to increase your effective floor and surface dusting area.
- The open construction of the cloth provides space for dirt and dust to be captured up in the cloth.
- The proprietary fiber technology helps capture and hold the dirt and dust in the cloth.
- The open construction helps to reduce drag when floor and surface dusting.
- The proprietary fiber technology pick-up even when wet.
- Perforated cloth allows you to customize the size cloth by every 6".

3M™ Easy II Holder

- The holder works with a standard threaded US broom handle.
- Allows you to easily use both sides of the 3M™ Easy Trap Duster cloth with out bending over.
- The "A" shape allows you to plow large debris (i.e. cups, paper or wrappers) without them tumbling over the holder.
- The extruded "A" shape is light weight yet very durable.
- The 3M™ Easy Trap Duster cloth easily attaches to the holder.
- The holder is available in five sizes.

3M™ Easy II Holder Replacement Material

- Easy to apply adhesive backed hook material that holds the dusting cloth in place.

Packaging:

3M™ Easy Trap Duster Standard
2 rolls/box

1 roll/box

3M™ Easy Trap Duster Cart
30 ft/box/8 boxes per case (two sizes 5" & 8")

3M™ Easy II Holder (bulk package)
1/bag

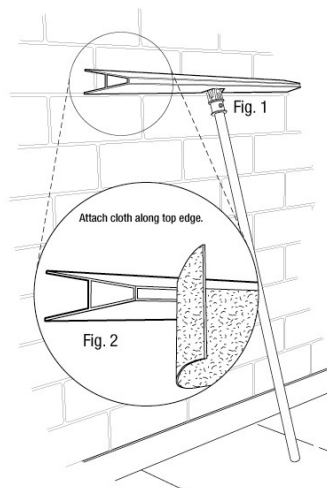

3M™ Easy II Holder (Individual package)
1/box

3M™ Easy II Holder Replacement Material
1/Case

General Use Directions:

Preparation

1. Tear off the needed amount of dusting media to cover the width of the 3M™ Easy II Holder.
2. Lean the 3M™ Easy II Holder with stick up against the wall so that the top of the "A" is facing you (Figure 1).

3. Start by applying the duster cloth to the black brush surface of the 3M™ Easy II Holder on one side and work your way across the 3M™ Easy II Holder. Make sure to align the edge of the duster with the edge of the black brush attachment surface (Figure 2).

4. Once applied all the way across the 3M™ Easy II Holder, rub hand over surface to set in place.
5. You are now ready to dust the floor.

When to Replace Duster Cloth

Dust and debris will begin loading from the leading edge of the cloth.

Continue to use the cloth until it is fully loaded.

The cloth is fully loaded when you begin to see debris or dust particles exiting from the trailing edge of the cloth.

When cloth no longer picks up dirt, flip the cloth over and use the opposite side. When both sides of the cloth are completely soiled, replace cloth.

Clean-up

Remove dirty duster cloth from the holder and place in trash. Suggested Disposal Methods: landfill or incineration

Product Specifications:

3M™ Easy Trap Duster Standard
5" by 125 feet per roll (2 rolls per box) – perforated every 6 inches

3M™ Easy Trap Duster Large
8" by 125 feet per roll (one roll per box) – perforated every 6 inches
