QUALITY SKIN CARE

## The Step-Up Dispensing System

Step-Up represents a new generation of Quality Skin Care. More product in the same amount of space as old-style bag-in-box dispensers means less time is spent in refilling dispensers. Incidences of empty dispensers are greatly reduced. TouchFree and manual dispensers give you the ability to match the specific needs of your facility to the dispenser option that best meets those needs. Adjustable portion control allows you to manage your usage rate.

### TouchFree Hygiene

Promote a hygienic environment in your restrooms by selecting the unique Step-Up TouchFree dispenser. Technology, performance and dependability are combined in the Step-Up TouchFree dispenser. Product is dispensed quickly without the fear of cross-contamination. Easy to monitor indicators make it easy for you to keep the dispenser filled and functioning.

### Quality Skin Care

Refills fit both styles of dispensers.  
The sanitary sealed refills empty fully and are easy to replace.
