Critical Care™
DISINFECTANT-FUNGICIDE-VIRUCIDE™

- 30 second+ immediate disinfection
- 24-hour§ residual bacteria kill
- Odorless-no harsh disinfectant smell
- Disinfectant-Fungicide-Virucide
- Reduced toxicity- HMIS Health = 0
- Ready-to-use
- No sticky or dulling residue
- Kills MRSA1 in 2 minutes

Recommended for use in combination with EnvirOx Concentrate 118™ for complete, low toxicity cleaning, sanitizing and disinfecting.

30-Second+ Kill/ 24-hr.§ Residual Kill
Fast, Easy, Effective

Fastest kill times, 24 hour§ residual kill, lowest toxicity

Critical Care is formulated to use on critical disease transfer points. Use it in combination with the EnvirOx Concentrate 118™ multi-purpose cleaner-deodorizer-sanitizer, and eliminate elevated toxins from your cleaning and disinfecting program.

1 Organisms controlled with 30 second kill time
2 Evaluated in the presence of 5% organic soil
§ When used as directed provides protection from Pseudomonas aeruginosa, Staphylococcus aureus and Salmonella cholerasuis up to 24 hrs after initial application.
Directions for Use

CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray is a colorless, odorless broad spectrum antimicrobial disinfectant and deodorizer. Proven to kill bacteria, fungus and viruses*, CRITICAL CARE Disinfectant, Fungicidal & Virucidal Spray should be used on non-porous environmental hard surfaces in homes, hospitals, nursing homes, medical and dental clinics, laboratories, ambulance and patient transfer vehicles, funeral homes, hotels, restaurants, schools, day care facilities, offices, veterinary clinics, animal shelters, kennels, exercise facilities, beauty and barber shops, subways, trains, airplanes, ships, busses and other public transportation vehicles, locker rooms, kitchens and restrooms.

Application Instructions

Pre-clean surfaces prior to using this product.

General Disinfection: For general disinfection and control of bacteria Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella cholerasuis, Listeria monocytogenes, Vancomycin Resistant Enterococcus faecium (VRE), Methicillin Resistant Staphylococcus aureus (MRSA) and Escherichia coli 0157:H7 the surface must be completely wet with CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, CRITICAL CARE Disinfectant, Fungicidal & Virucidal Spray provides protection from Pseudomonas aeruginosa, Staphylococcus aureus and Salmonella cholerasuis up to 24 hours§ after initial application.

Fungicidal Activity: CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray is effective against Trichophyton mentagrophytes, the Athlete’s Foot fungus. Use in locker rooms, dressing rooms, over-bed tables, examination tables, stove tops, bed frames, wheelchairs, over-bed tables, examination tables, waste containers, tables and chairs.

Fungicide Activity: CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray has been formulated to disinfect hard non-porous environmental surfaces (painted, glazed tile, plastic, metal, glass, glazed porcelain) and objects such as walls, floors, counters, sinks, exterior toilet surfaces, cabinets, tubs, showers, doorknobs, light switch covers, telephones, appliances, stove tops, bed frames, wheelchairs, over-bed tables, examination tables, waste containers, tables and chairs.

Cleaning Procedure:

Fungus Control: For effective control of the fungus Trichophyton mentagrophytes, the surface must be completely wet with CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray for 10 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

*Viral Control: To kill Herpes Simplex Type 1 F(1) Strain, Influenza A Virus, Hong Kong strain, Rhinovirus R37 Strain 151-1, Polio Virus Type 2 Lansing Strain the surface must be completely wet with CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray for 10 minutes. The surface may then be wiped dry with a clean towel.

Kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV). Instructions for Cleaning and Decontamination Against HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use appropriate barrier protection such as latex gloves, gowns, masks or eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. Contact time: Apply CRITICAL CARE™ Disinfectant, Fungicidal & Virucidal Spray to area to be treated. The surface must be completely wet with CRITICAL CARE Disinfectant, Fungicidal & Virucidal Spray for 30 seconds. The surface may then be wiped dry with a clean towel. This contact time will not control all organisms listed on this label. Refer to application instructions for other organisms. Disposal of Infectious Materials: Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

Application Information

Organism Kill Time
Pseudomonas aeruginosa 30 sec.
Staphylococcus aureus 30 sec.
Salmonella cholerasuis 30 sec.
Listeria monocytogenes 30 sec.
Vancomycin resistant Enterococcus faecium 2 min.
Methicillin resistant Staphylococcus aureus 2 min.
Escherichia coli 0157:H7 2 min.
Trichophyton mentagrophytes (Athlete’s Foot Fungus) 10 min.
* HIV-type 1 Strain HTLV IIIB 30 sec.
*Herpes Simplex Type 1 VR-733 F(1) Strain 1 min.
*Influenza A VR-544, Hong Kong Strain 10 min.
*Rhinovirus R37 VR-1147, Strain 151-1 10 min.
*Polio Type 2, VR-1002 Lansing Strain 10 min.

Toxicology & Safety Information

Skin irritation = non irritant
Eye irritation = non irritant
Acute Oral Toxicity = >5000 mg/kg
Dermal Sensitization = not a sensitizer
Flammability = non combustible
Dot Classification = non regulated
Hazardous waste = no
