

NEW DIMENSIONS™

GRANITE GLOSS REJUVENATOR

REJUVENECEDOR DE BRILLO PARA GRANITO

Technical Data

Areas of Use

- Airports
- Schools, Universities, Child Care Centers
- Hotels, Motels, Restaurants
- Retail Stores, Malls, Grocery Stores
- Hospitals, Nursing Homes, Doctors Offices
- Bathrooms, Shower Stalls
- Office Buildings, Lobby Areas

Specifications

Available Sizes.....1 kg.
 Physical State.....powder
 Color.....light grey
 Fragrance.....odorless
 pH.....7
 Flammable.....No
 Density, kg/l.....7.5-8.5

What the Pro's Know

Most effective following the New Dimensions scratch removal process. If area dries out too fast, apply 1 ounce of water and continue to buff. It is important to buff until dry powder residue falls off the pad. Once it does, work the powder around until any cloudiness is gone. Using a new pad may result in the area to dry fast. To prevent drying simply add a 1/2 ounce of powder to 1 ounce of water and continue to buff. Once the pad has become loaded, premature dry back will not be a problem.

Description

- Polishes all types and colors of granite
- Achieves the highest level of gloss
- Easy-to-use and provides immediate results
- Can't harm the stone

New Dimensions Granite Gloss Rejuvenator is used to polish all types and colors of granite. Granite is the second hardest stone second only to diamond and maintaining it's natural luster under heavy foot traffic requires granite specific products. Our Granite Gloss Rejuvenator is the ultimate solution. It's easy to use and provides immediate results. Simply apply powder and water to the granite and buff to dry.

Directions

Scratch Removal Procedures (Step 1, if needed):

1. For maximum results, the granite should be honed using New Dimensions Scratch Removal Disks with enough water to keep the floor wet through the entire process. (Time: 1 minute per sq. ft.)

2. Completely remove slurry by first wet vacuuming and then damp mopping or autoscrubbing.

3. Pick up any residual with a final damp mop rinse or scrub clean with an autoscrubbing pad.

OR

Polishing Procedures (Step 2):

1. Apply 1 oz. of New Dimensions Granite Gloss Rejuvenator and 1 oz. of water onto the granite.

2. Buff the mixture until dry over 10-12 sq. ft. with a white or light hair polishing pad and a 175 rpm machine. Continue to make several passes until desired gloss is achieved.

3. Vacuum up powder residue with a wet-dry vacuum set up for dry soil removal.

4. Damp mop or auto scrub the floor with New Dimensions Neutral Stone Cleaner to remove residue. Repeat application and buffing if higher gloss is desired.

Easy to Use

Provides Immediate Results

Polishes All Types and Colors of Granite

MATERIAL SAFETY DATA SHEET

01/03/02

MANUFACTURED FOR: TRIPLE S, 2 Executive Park Drive, Billerica, MA 01862 1-800-323-2251
EMERGENCY TELEPHONE: 1-888-779-1339

SECTION 1 - PRODUCT

NAME: New Dimensions™ Granite Gloss Rejuvenator
Triple S Product No.: 09011
Triple S Product Sizes: 6 kg.
Product Type: Granite Polish Powder

SECTION 2 - HAZARDOUS INGREDIENTS

Iron Alloy CAS# 1309-37-1
Tin Oxide CAS# 18282-10-5

SECTION 3 - HEALTH HAZARD & FIRST AID

1. Acute Health Effect: None known
2. Chronic Health Effects: None known
3. Carcinogen: Not listed
4. Primary Entry Routes:
a) Skin: Irritation may occur.
b) Eyes: Flush with copious quantity of water, remove contact lenses before flushing with water. Seek medical attention.
b) Ingestion: N/A
c) Inhalation: N/A
5. First Aid:
a) Eyes: Wash with water and soap.
b) Ingestion: Seek medical attention.
c) Inhalation: Seek fresh air.

SECTION 4 - PHYSICAL & CHEMICAL PROPERTIES

1. Physical State: Light grey/black/red powder
2. Odor: Odorless
3. pH: 7
4. Density, kg/l: 7.5-8.5
5. Melting point, °C: N/D
6. Boiling point, °C: N/D
7. Solubility: Not soluble
8. Flash point, °C: N/D

SECTION 5 - FIRE & EXPLOSION HAZARD

1. Flash point, °C: N/D
2. Extinguishing Media: Water, foam, CO2, dry chemicals.
3. Special Fire Fighting Procedures: Normal procedures to be used.
4. Unusual Fire or Explosion Hazard: None known.

SECTION 6 - REACTIVITY DATA

1. Materials/Conditions to Avoid: None known.
2. Hazardous Decomposition Items: None known.

SECTION 7 - SPILL OR LEAK PROCEDURES

1. Methods for Clean-up: Absorb spill with inert material. Wash area with suitable detergent and water.

SECTION 8 - PERSONAL PROTECTION

1. Engineering Measures: Provision of adequate exhaust system in working area.
2. Respiratory Protection: Dust mask.
3. Hand Protection: Protective gloves.
4. Eye Protection: Goggles / Protective glasses.
5. Body Protection: Rubber or plastic apron.

SECTION 9 - SPECIAL PRECAUTIONS

1. Handling: Handle in accordance with good manufacturing practice.
2. Storage: To be kept in well closed containers in a cool and well and well ventilated place.

SECTION 10 - SECTION 313 SUPPLIER NOTIFICATION (SARA)

This product contains the following chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 and of 40 CFR 372:
None

SECTION 11 - TOXICOLOGICAL INFORMATION

Skin and Eye Contact: Irritation may occur.

SECTION 12 - ECOLOGICAL INFORMATION

Not considered harmful to the environment.

SECTION 13 - DISPOSAL CONSIDERATIONS

Dispose according to Local, State/Province, federal and regulations.

SECTION 14 - DOT TRANSPORT INFORMATION

This product is not regulated.

SECTION 15 - REGULATORY INFORMATION

Labeling: None.

SECTION 16 - OTHER INFORMATION

N/A = Not Applicable

N/D = No Data

N/E = Not Established

PMCC = Pensky Martin Closed Cup

The health hazards given on this MSDS apply to this product in its concentrated form (as supplied) and may differ significantly at use dilution. The signs and symptoms of overexposure apply only to negligence in handling or misuse of the concentrated product and not to the routine exposure of the diluted product under conditions of ordinary use.
