What the Pro's Know

The most unique aspect of this cleaner is that it is chelate-free. Chelating agents are in practically every cleaner that is dilutable by water. Their purpose is to attack the minerals in water so that the detergents in the cleaner can more effectively emulsify and suspend the soil. Stone is a mineral and daily applications of chelating agents can have a deleterious effect on polished stone. New Dimensions Neutral Stone Cleaner is formulated with "Soil Block" impregnator technology which protects the stone with each additional use.

Description

- Chelate-free neutral cleaner for daily use
- Thoroughly wets, emulsifies and suspends soil from highly polished stone surfaces without attacking the gloss of the stone
- "Soil Block" impregnator technology provides enhanced protection

New Dimensions Neutral Stone Cleaner is a chelate-free cleaner, fortified with "Soil Block" impregnator technology to further protect the stone with each use. It's designed to be a daily cleaner for all types of natural stone. For daily cleaning dilute 1:64.

Directions

Dilution Rate:

For Autoscrubber or Mop Bucket:

1:64 (2 oz. per gallon)

For Spray & Wipe:

1:43 (3 oz. per gallon)

Directions for Use:

Read the entire label before using this product.

OR

FLOORS: Use New Dimensions Neutral Stone Cleaner with cool water in a mop bucket or autoscrubber (use red or white pad) for daily or general cleaning. **NO RINSE REQUIRED.**

OTHER STONE SURFACES: Dilute New Dimensions Neutral Stone Cleaner (1:43) into a spray bottle. Spray directly onto the stone surface, wipe dry with a soft cloth.
