

GRANITE RESURFACE AND POLISHING PROCEDURES

Step 1— Scratch Removal Discs (SRD's):

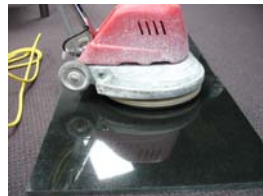

Thoroughly strip the floor to completely remove all surface coatings.

Hone the granite with **New Dimensions Foam Disc Holder & Scratch Removal Discs** and water.

Honing process time on Granite is 1 min. per sq. ft. Keep wet at all time.

Vacuum the slurry and rinse with **New Dimensions Neutral Stone Cleaner**.

Step 2 — Granite Polishing (Maintenance Procedures):

Pour 1 oz. Granite Gloss Rejuvenator and 1 oz. of water directly onto the floor.

Buff 10-12 sq. ft. with a white polishing pad.

Continue to buff until mixture is completely dry and gloss is restored.

Sweep or vacuum to remove the powder residue.

Repeat application if higher gloss is desired

- Protect with New Dimensions Stone Impregnator Seal
- Clean daily with New Dimensions Neutral Stone Wash
- Maintain gloss with New Dimensions Granite Gloss
