

\$4.8 Billion **500,000**

in excess health care costs for facilities for treatment of C. difficile per year

Healthcare related C.difficile infections in the US per year

Perisept Technology

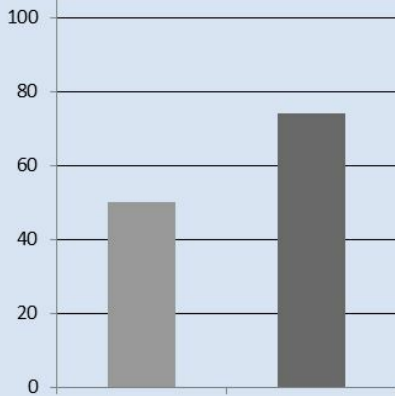

- Non-Bleach Sporocidal Disinfectant
- 2 minute C.Diff kill claim
- One Step Cleaner Disinfectant
- Broad Efficacy against major HAIs

Bridging the Gap Healthcare Training

24%

Improvement of Surface Disinfection with:

- Education
- Checklists
- Fluorescent Monitoring Systems

Reduced Dwell Time = Improved Outcome

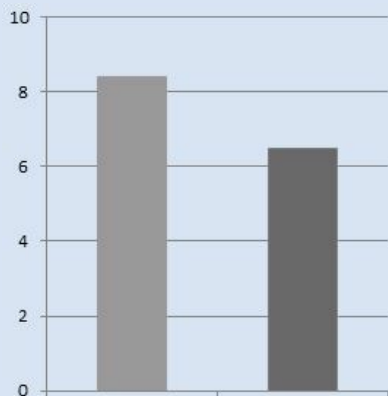

Dwell Time Factors ⌚

- Temperature
- Humidity/Air Flow
- Application Method
- Composition of Disinfectant ie. alcohol

Medical Center Data

23%

C.Diff reduction per 10,000 patient days with non-bleach sporocidal disinfectant

Unlike Bleach, Perisept does NOT:

- Corrode Metals (hospital beds, wheelchairs, etc.)
- Damage Surfaces (monitors, counter tops, floor finish, etc.)
- Require a 3 Step Process – Clean, Bleach, Rinse (increases labor)
