

TRIPLE S

ALERO PT DELUXE

FOR ALERO PT CHAMELEON FRAGRANCES

Subtle design. Superior scent. Supreme, natural airflow.

The Alero PT Deluxe Dispenser provides discreet air freshening and complementary aesthetics to all interior surroundings, allowing for enhanced multi-phasing fragrance delivery for up to 60 days.

No batteries. No fan. Just pure, natural airflow.

Making science simple.

The Alero PT Deluxe Dispenser provides a refreshing scent via a safe and lockable cabinet, with fragrance delivered at sub-micron levels and dispersed through interior environments for up to 60 days.

All it requires to operate is airflow from its surroundings.

It is the ultimate passive air care system, stimulating the senses and making the science behind a multi-phasing air freshener, look rather simple.

ALERO PT CHAMELEON FRAGRANCE TECHNOLOGY- FROM ONE COMES MANY

Pioneering, sub-micron technology

The Alero PT Chameleon particles enable superior fragrance delivery, and are much smaller and lighter than the particles in other fragrance systems.

Remaining airborne for many hours, this makes Alero PT Chameleon highly effective, safe for public areas and continuous exposure.

How it works – Multi-phasing technology

Multiple fragrances from a single cartridge.

The Alero PT Chameleon is made up of a unique ceramic capsule and a fragrance center core.

The ceramic capsule is infused with high quality fragrances, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different. The diffusion rate of fragrance moving through the ceramic capsule is much different to the fragrance evaporating from the surface of the fragrance core. This means that the start fragrance transforms into something very different over time. These blends of complementary but differing fragrance notes specifically eliminate fragrance fatigue.
